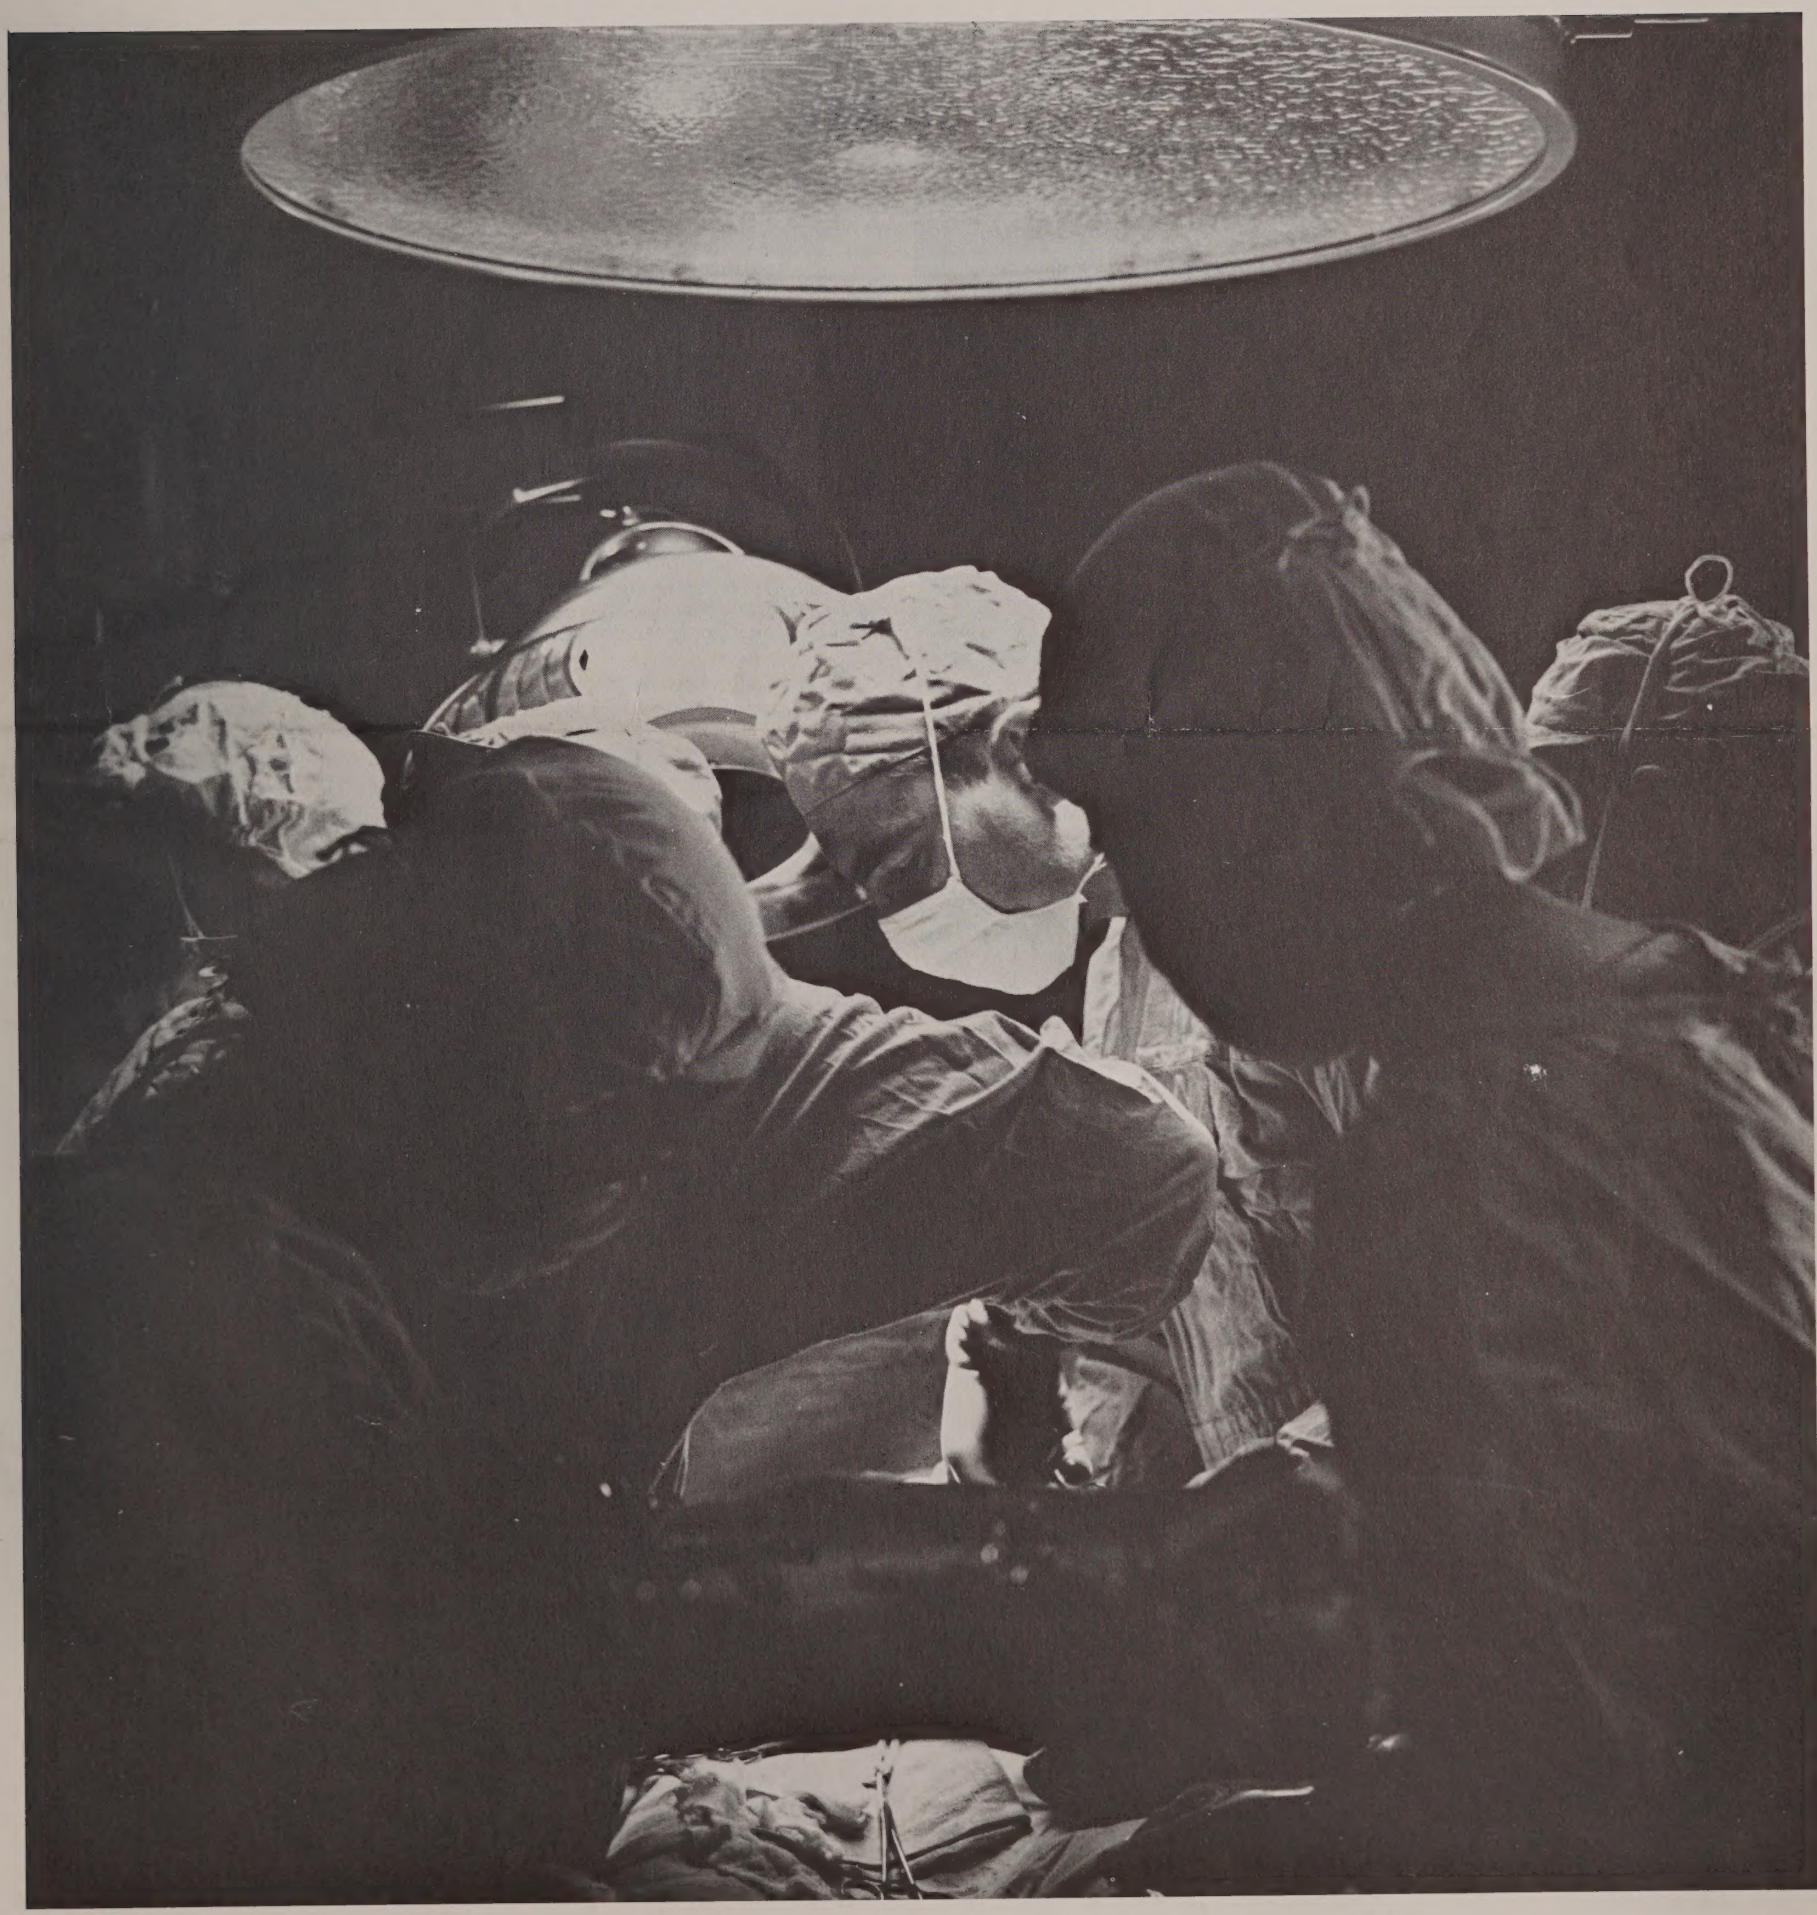
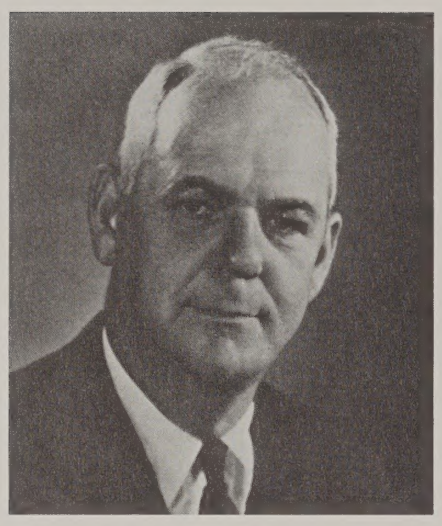
Beth Israel Hospital, Boston
Annual Report 1972



Report of the President



The twelve months that have elapsed since my previous report may rank as one of the most meaningful and productive periods in the history of Beth Israel Hospital. Ideas that were born over a decade ago, flourished briefly, and then had to be abandoned, have had new life breathed into them, and hopefully will become realities.

It is all attributable to the sound planning and dedicated perseverance of so many able men and women. Building a major addition to this, or any hospital, is at best, a complex effort, and as of a year ago, it became an even more remote prospect for us. In November of 1971 the Massachusetts Legislature enacted a bill requiring every hospital in the Commonwealth which planned any construction project costing $100,000 or more, to obtain a Certificate of Need from the Massachusetts Department of Public Health and the Public Health Council. From that November day, there followed a five month period of applications and hearings, sprinkled with the usual delays due to the setting up of a totally new program. During this time our apprehension mounted and our doubts increased. In April, however, due in large part to Dr. Mitchell T. Rabkin's excellent presentation of the Hospital's requirements and thoughtful review by the Commonwealth's Department of Public Health, we were granted our Certificate of Need.

As the cost of a new inpatient building is far in excess of what we believed our fund-raising potential to be, we turned to the Health and Educational Facilities Authority, commonly known as HEFA, for assistance. This new agency, whose primary function is to assist nonprofit institutions like the Beth Israel raise money for construction through the issuance of tax-free bonds, was receptive to our petition.

At the request of HEFA, an economic feasibility study was completed in January of 1972 by the independent accounting firm of Ernst & Ernst. The study indicated that the Beth Israel Hospital could service a bond issue of about $28-million, provided the Hospital raise some $6 million from its private sector.

On April 27, at a special meeting of our Board of Trustees, it was voted to proceed with the construction of a new patient facility, the Feldberg Building. A capital campaign goal of $6,350,000 was adopted, and the working title "PROJECT REBUILD" was given to this important program of construction, expansion and modernization.

After the Trustees' vote, Stanley Feldberg and his campaign team went to work with great determination. Throughout the summer and into the fall the PROJECT REBUILD campaign moved on with an intensity, matched only by the understanding, concern, and response of the community's leadership. To all of them, givers or solicitors, or both, I extend my warm thanks and am happy to report to you that the PROJECT REBUILD campaign is an unqualified success.

We have also been working with our architects and with our prospective contractor, to be certain that the Feldberg Building could be built for our estimated cost, and we are safe on this count as well.

The completion of this groundwork means that after the feasibility study is updated, and after HEFA hopefully reconfirms its earlier decision, then we will most likely float a bond issue early in 1973. With the proceeds of the bond issue in hand, the Beth Israel Hospital will then be prepared to break ground for the Feldberg Building on or about April 1, 1973.

At this point I want to focus on a few of the highlights of PROJECT REBUILD and the benefits they will bring to our patients and physicians. Central to the project is, of course, the Feldberg Building which will contain 176 beds. With the replacement of 98 antiquated beds, we will then have a total complement of 452 beds, 40% of which will be spanking new.

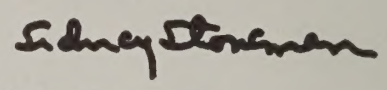
The new Building will also house the thoroughly modern Smith Surgical Pavilion with 11 operating suites, where the expertise of the Hospital's surgical staff can be utilized better and more efficiently in top-notch facilities which will match the abilities of all our surgical and gynecologic personnel.

You have heard much of the program for the expansion and refurbishing of our Diagnostic Radiology Department. Construction of the Special Procedures Suite, the third and final phase of the program, is now in progress. Each of the Suite's five rooms will house the sophisticated diagnostic apparatus required to perform the complex procedures demanded for today's medical care. Upon completion, later in 1973, our Diagnostic Radiology Facilities should be second to none.

Not all of PROJECT REBUILD's thrust will be devoted to new construction and expansion. In recognition of our long standing needs, it is our hope that a sweeping program of modernization, including the air-conditioning of all the patient rooms in both the Gryzmish and South Building, will soon be underway. If it is humanly possible, the air-conditioning project will be substantially completed by this summer.

The first tangible landmark of PROJECT REBUILD is now complete and ready for your use. I'm referring to the new 500 car parking garage which will have opened by the time this report is printed. I ask that you take a special look at this facility because I think our Buildings and Grounds Committee, spearheaded by Marshall Dana and Norman Leventhal, and our architects have done an especially fine job of tucking this sizeable structure quite unobtrusively into our limited land area.

Of necessity, this report has been brief. So much has happened and so much has been planned during this past year, that only a bare summary is possible in the space allotted. Once again, I would like to thank each and every considerate friend, whose devotion to our community has made the PROJECT REBUILD campaign so successful. The year ahead is bright and promising. We look forward to continuing the progress your support has made possible.



SIDNEY STONEMAN
President

Report of the General Director

October 1971

Dr. Thomas Delbanco becomes Medical Director of Outpatient Department; conceptual work begins on major revision of ambulatory medical care delivery with Mr. Arthur Berarducci, Assistant Director of Clinical Services.

Women's Auxiliary hosts two performances of The David Frost Show — first taping outside of the network studio.

Discussions begin on possible development of relationship between Beth Israel Hospital and Rambam University Hospital in Haifa.

First lecture honoring memory of Dr. Harry Derow, by Dr. Neal Bricker, Washington University, St. Louis.

November 1971

Fifty-sixth Annual Meeting of the Hospital features overview of health care in Massachusetts by Dr. Alfred L. Frechette, outgoing Commissioner of Public Health. Special honors go to Dr. Grete Bibring, Psychiatrist-in-Chief, Emeritus, in celebration of her 25th year on the Staff and marking the opening of the Inpatient Psychiatric Unit on 2 East, an effort whose groundwork was begun under Dr. Bibring's leadership.

Mr. Joseph C. Foster, Trustee, dies.

Formal chaplaincy office established in Kirstein Hall.

Mr. Paul Rodliff appointed Controller in Fiscal Services.

New quarters for consultation, film reading and discussion, and study completed on Sherman 3 for Diagnostic Radiology.

December 1971

Start of modest program in renal transplantation is announced. Rationale includes the fact that transplantation is no longer experimental but rather an accepted method of treatment, the presence of a long queue for transplants at existing Boston centers, the fact that no major additional equipment or personnel costs to the Hospital will be required, the continued growth of financial support for transplant patients, and the judgment that knowledge of transplantation techniques and the underlying physiology, immunology and pharmacology is critical if Beth Israel Hospital is to remain within the mainstream of American medicine. "Town Meeting" held to air these issues amongst concerned Hospital personnel and students.

Mr. Frank S. Shapiro, Honorary Trustee, dies.

Patient food services system switched to insulated dishes and particularly plates with intrinsic heat source, making for hotter and more appetizing meals. Bulky meals-on-wheels wagons exchanged for smaller and quieter carts. Response by patients is favorable.

Board of Trustees reaffirms by vote its intent to proceed with construction of the Feldberg Building, as the various approvals, financing arrangements, programmatic and architectural decisions are choreographed.

January 1972

Drs. George Altman, Howard Frank, Bernard Sears and Julian Snyder are appointed to Medical Executive Committee for 1972. Role of Medical Conference Committee as interface between Medical Staff and Board reiterated, particularly through Staff Council leadership by Dr. Clinton Koufman.

Women's Auxiliary moves from Carlton House to Kirstein Hall.

Electric beds removed from MICU as sophistication in electrical safety mounts, a result of colleagueship between Maintenance Department and Resuscitation Committee. Radiolucent beds added to MICU, to permit on-site fluoroscopy.

Dr. Irving H. Goldberg moves to Harvard Medical School quadrangle to become Professor of Pharmacology and Chairman of that Department. Dr. John Vorenberg leaves to become Chief of Psychiatry at Springfield Hospital Medical Center.

Intraaortic balloon assist pump technology added to ICU armamentarium. Guidelines are published, training of staff instituted.

Exchange Cart system for more efficient maintenance of adequate levels of supplies is initiated; first carts go to Operating Room.

February 1972

Dr. Louis Wolff, member of the Board of Consultation in Medicine and Clinical Professor of Medicine, dies.

Board Committees appointed for 1972 include many staff physicians. Buildings and Grounds: Drs. Arnold Berenberg, Robert H. Resnick; Finance: Drs. Waldo Fielding, George Kurland; Finance Subcommittee on Computer Operations: Dr. Howard Bleich; Long Range Planning: Drs. David G. Freiman, Bernard Sears, William Silen, Julian Snyder; Personnel: Drs. Sigrid Tishler, Richard Zimon; Public Relations: Drs. P. Jack Kasarjian, Abram London; Resources: Drs. S. Charles Kasdon, Samuel Stearns.

House Officers' Common Room relocated to 4th floor, Sherman Building.

Mr. Theodore W. Berenson, Honorary Trustee, dies.

Dietary Department institutes complimentary coffee service for patients waiting to be admitted and their accompanying families. Located in the Lobby, it is implemented in large part by volunteers and offers a new and valuable grace note.

March 1972

Construction of garage finally gets under way. Structure to house 500 cars after completion projected one year later. Relocation of many employees to Vining Street parking area taken with good grace and cooperation on their part. Effort continues to secure Certificate of Need for Feldberg Building.

New Trustees elected are Mr. Milton Berger, Mr. Bertram Druker, and Mr. Mortimer B. Zuckerman.

City-wide, nation-wide decline in hospital inpatient census; many reasons proffered but none is convincing.

March 1972 issue of "Town and Country" lists Beth Israel as one of the "Super Hospitals" of America.

Walk-In Clinic hours are extended from 9:30 a.m. through 8:30 p.m., providing quick access for transient patients at less that half the cost of an Emergency Unit visit.

Exhibit on hospital care opens at Children's Museum, hosted by BIH.

Dr. Eugene Braunwald, shortly to become Physician-in-Chief at the Peter Bent Brigham Hospital, is Visiting Professor and Physician-in-Chief pro tem for a week at BIH.

April 1972

The Hospital is granted a Certificate of Need from the Massachusetts Department of Public Health for construction of the Feldberg Building and related renovations. This will create 176 new beds, of which 98 will be replacement and 78 an incremental addition; a new operating pavilion; a new ground-floor entrance, lobby and chapel. The condition accompanying award of the Certificate of Need is that our Inpatient Pediatric Unit be closed out by the completion of construction. PROJECT REBUILD begins in earnest, to secure $4 million of new money, under the leadership of Mr. Stanley Feldberg.

Professor Paul Freund, Harvard Law School, speaks on Ethical and Legal Issues in Biomedical Advance in the annual Dr. Nathan Sidel lecture on the Art of Medicine.

Starting time in the Operating Room moves from 7:30 a.m. to 8:00 a.m., allowing Surgical House Staff to make rounds with Head Nurses on the surgical floors, to the gratification of nursing staff and to the benefit of post-operative patients.

Mr. Robert R. Fanning, Assistant to the General Director, becomes Assistant Director of Burbank Hospital in Fitchburg.

New series of presentations to the public, "Faculty Night at Beth Israel Hospital," begins; Drs. Daniel Kimberg, Norman Joffe and Donald Glotzer discuss clinical gastroenterology.

Mr. Vincent Godlesky retires from the Purchasing Department after 40 years of service to the Hospital.

Mrs. Ruth A. Patterson, Director of Nursing, refines nursing job descriptions and institutes the new but logical progression from Assistant Head Nurse to "Chief Nurse" (Evening or Night Supervisor) to Head Nurse to Supervisor, substantially improving the relationships between supervision and line operation in Nursing.

Transportation Service marks first year of operation; now receives 10,000 telephone requests monthly.

May 1972

Bond issue under Health and Educational Facilities Authority of the Commonwealth of Massachusetts will be required to secure full financing for the Feldberg Building. PROJECT REBUILD off to a healthy start with $300,000 gift from a concerned and thoughtful patient, secured by the equally concerned and thoughtful physician of that patient. Meanwhile, a mock-up of a proposed typical semi-private room is put on display for review and comment.

Dr. Howard H. Hiatt, Physician-in-Chief, is appointed Dean of the Harvard School of Public Health and plans to leave the Hospital at the end of June. *Ad hoc* committee is formed at Harvard for his successor. In addition, a Staff Council liaison committee is formed to garner opinion from the Medical Staff, organize it and convey it directly to those members of our Staff who are on the Harvard committee.

Newly expanded and refurbished Department of Diagnostic Radiology holds open house, honoring Mr. Jacob Reed, donor of the Ann Putnam Reed Wing.

Medical Alumni Day hosts symposium on Hospital-Community involvement, exhibits and departmental visits, and supper party. Many warm and good feelings generated.

Mr. Max Chernis, Honorary Trustee, dies.

Mrs. David Weintraub turns over gavel of Beth Israel Women's Auxiliary to Mrs. Paul Golub, having continued the high standard of leadership which has benefited the Hospital for so many years.

Program is under way to get all TV sets in patient rooms off the floors and onto wall brackets. Air conditioning installed in 1 South patient rooms; remainder of House must wait for new electrical service.

Memorandum of Understanding signed by representatives of Beth Israel Hospital,

(Continued on next page)

Boston Hospital for Women, Children's Hospital Medical Center, New England Deaconess Hospital, Peter Bent Brigham Hospital, President and Fellows of Harvard College and the Children's Cancer Research Foundation, linking the efforts in clinical oncology at all of these institutions and paving the way for growth of the new Charles A. Dana Center of the Children's Cancer Research Foundation.

President of the Staff Council begins monthly informal meetings with General Director and Officers of the Board of Trustees, in order to ease direct conveyance of some of the moods and questions of the Medical Staff to the Board, and some of the information and concerns of the Board to the Medical Staff.

June 1972

Mr. Irwin Benjamin, Honorary Trustee and former Treasurer, dies.

First year of Hospital's experience with the problem-oriented record is reviewed and considered to be a favorable advance in record keeping and patient care; to be continued and used universally in inpatient care at BIH.

Ms. Suzanne Kase leaves Division of Clinical Services to join former Division Director, Mr. Jack Kasten, at Arthur D. Little.

Beth Israel joins with other Harvard Hospitals in forming the Medical Area Service Corporation (MASCO), designed to offer economies of scale in the provision of joint services, such as communications, materials handling, power generation and supply, to the several members.

Mr. Bernard J. Hennessy becomes Director of Purchasing.

Faculty Night at Beth Israel Hospital — Drs. Howard Bleich and Warner Slack describe innovation in computer use for better care of patients.

Board of Trustees votes to establish relationship with Washingtonian Center for Addictions and with its proposed Kenmore Square Detoxification Center. Dr. David Lewis, of the B.I. Department of Medicine, becomes Physician-in-Chief at the Washingtonian Center.

Ms. Elizabeth Swenson leaves as Operating Room Supervisor, to be replaced by Ms. Jacqueline Kellner. Ms. Gail Gomez becomes Head Nurse of R-SICU.

Board of Trustees votes to proceed with revision of outpatient services by separation of ambulatory care into two tracks — BIAC (Beth Israel Ambulatory Center) for primary care, and Specialty Clinics. BIAC will represent the most significant revision of ambulatory care in any teaching hospital throughout the country, and is to be put into operation in October 1972.

Dr. Howard H. Hiatt leaves the Hospital and the Department of Medicine after a nine year tenure as Physician-in-Chief to become Dean of the Harvard School of Public Health. He leaves a record of growth in the quality of patient care, in the calibre of House Staff and Medical Staff, in the enthusiasm of medical students and in the national standing of the Hospital, "a progression logical and lucid in retrospect but provocative and exciting as we shared these years . . ."

July 1972

Dr. Howard S. Frazier becomes Acting Physician-in-Chief, heading the Department of Medicine.

Mr. Jeffrey C. Poster joins as Assistant Director, Clinical Services.

Physical rearrangements are under way to accommodate revision in ambulatory care delivery — Income Control removes affably to Kirstein Hall, Orthopedics moves to Rabb basement adjacent to Physical Medicine.

Nursing service institutes regular nursing audit procedures on medical and surgical units.

New Cystoscopy room is completed.

Two adjoining patient rooms on 6 South are remodeled to serve as a Metabolic Unit, under the leadership of Dr. Richard Spark. Designed for carrying out important clinical studies, the Unit honors the late Dr. Samuel Gargill, whose approach to patient care and scientific inquiry exemplified that of the scholarly and sensitive physician the Hospital deems the ideal.

August 1972

Beth Israel Hospital takes national leadership and achieves nationwide prominence by being the first hospital to promulgate, publicize and attempt to assure the rights of patients. "Your Rights as a Patient at Beth Israel Hospital, Boston" is published in English and Spanish. Subsequently the Commission on Medical Malpractice of the Department of HEW recommends that all hospitals follow the lead of BIH, and the American Hospital Association comes out with its version which is distributed to all 7,000 hospitals in this country.

The budget-setting process is perturbed by Phase II controls, the vagaries of the proposed new Massachusetts Hospital Association-Blue Cross contract, withholding of certain payments by the State for services rendered to Medicaid and General Relief patients. Despite these uncertainties, the Hospital plans to administer an across-the-board adjustment for employees which takes into account the rising cost of living, and in addition to continue the long-standing BIH policy of awarding merit increases to employees whose performance is outstanding.

The coffee shop is refurbished, a distinct improvement.

The Resuscitation Committee institutes a program of semi-annual training sessions for all physicians and other professional staff dealing with cardiopulmonary resuscitation.

Clinical Pharmacology in the Longwood Area comes of age with the appointment of Dr. Peter Goldman as Professor and with the institution of efforts in this discipline under his leadership tying together Beth Israel Hospital, Children's Hospital Medical Center and Peter Bent Brigham Hospital.

Mr. Richard S. Luskin becomes Assistant to the General Director.

The Exchange Cart system is expanded; 5 South and 6 South are the first inpatient units to benefit.

Dimock Community Health Center opens its own x-ray facility for the more common diagnostic radiologic tests. It will also serve the Martha Eliot Health Center and Model City Areas I and II. The professional radiologic services are provided by BIH.

September 1972

New Trustees elected are Mr. Leo Dunn, Mr. Robert Friedlander, Dean Arnold Gurin, Mr. George J. Katz, Mr. Bertram R. Paley, Mr. Paul D. Slater. Elevated to Honorary Trustee are Mr. David S. Bond, Judge Matthew Brown, Mr. Henry G. Cohen, Mr. Lassor H. Grosberg.

Dr. W. Dean Warren, Chief of Surgery, Emory University, is Visiting Professor of Surgery. His visit coincides with the Department of Surgery postgraduate course, "Controversial Subjects in Surgery."

Dr. David G. Freiman, Pathologist-in-Chief and Mallinckrodt Professor of Pathology, returns from a year's sabbatical studying philosophy and method in medical education, embellishing his leadership as Chairman of the Committee on Curriculum, Harvard Medical School.

Unit Management changes its name to Hospital-Services Management, and Mr. Joel N. Chase is appointed as Director of Hospital-Services Management, the pivotal service to patients relating to matters of care and comfort that are not primarily medical or nursing but may well be the major determinant in the "success" of hospitalization in the patient's eyes.

The fiscal year just ending has 53 weeks, to make up for several preceding years of 52 weeks (364 days).

Discussions begun on Beth Israel Hospital's involvement in a program of screening for the carrier state of Tay-Sachs Disease.

Budget for '72-'73 approved by Board of Trustees. $1,127,000 increase in salaries and wages, $641,000 increase in supplies and expenses anticipated over projected actual figures for '71-'72. Medical and surgical room and care rate rises $5.00 except in the Intensive Care Units where it rises $10.00. No change in newborn accommodations.

Compared to previous year, total patient-days are up by 4,629 (3.7%); with the 53-week fiscal year figures adjusted to 52 weeks for comparison, patient-days are still up by 2,162. Rise in patients admitted is even more striking, by 1,046 (6.4%) and 719, respectively, indicating further efficiencies gained by the Hospital through shortening the average hospital stay and through more effective utilization of our increasingly complex services. Concerns for the year ahead focus upon the growing forces of governmental and public regulation — these as fragmented or even more so than the conglomerate of health services they will attempt to regulate; on the growing disinclination of Federal government to support community care, specialty training and basic research; and on the ways we must insure that the patients' rights we proclaim are made widely known and broadly exercised by patients both at Beth Israel Hospital and elsewhere.

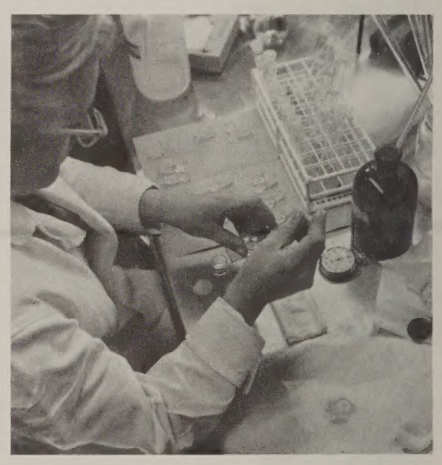
Report of the President of the Staff Council

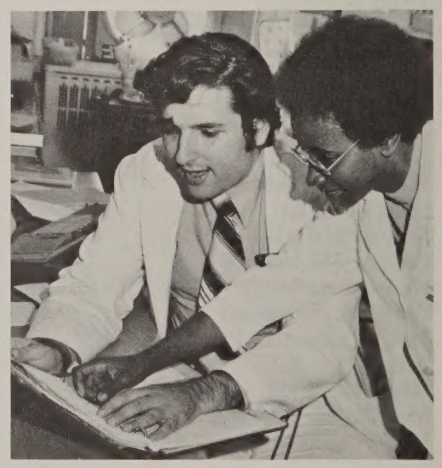
The membership of the Staff Council, as representatives of the entire Staff, are impressed with the vigor and dedication that have characterized the efforts of the Beth Israel Board of Trustees on behalf of the Hospital, including the current building program. Our representatives have been privileged to have been involved in many aspects of Hospital activity as they affect the care of our patients; this has enabled us to be appreciative of the responsibilities of the Trustees and their dedication to a difficult, complex task. Our patients are the beneficiaries of our having an institution such as Beth Israel Hospital in which to work.

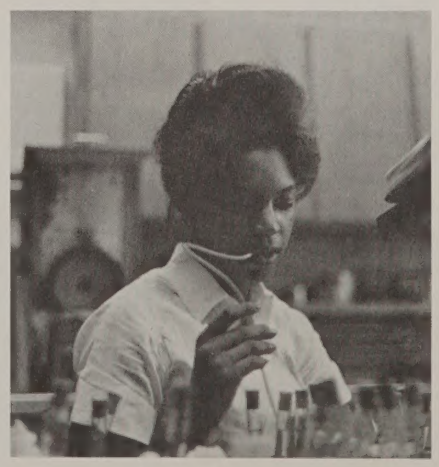
With these thoughts in mind, and in anticipation of our involvement in the many challenges that lie ahead, the Staff renews its resolve to continue its sincere and constructive partnership for the betterment of the Beth Israel Hospital.

Clinton Koufman, MD

CLINTON KOUFMAN, M.D.
President







Report of the President of the Women's Auxiliary

As my first year as President of the Beth Israel Hospital Women's Auxiliary draws to a close, it is well for us to reflect and take stock. We have much to be proud of and thankful for. However, there is always a great deal of room at the top for improvements — improvements which can be accomplished only because our vast experience and background as an outstanding group of women have and will give us this wonderful opportunity.

Each succeeding president makes a genuine effort to live up to the fine achievements of her predecessor by bringing to her own administration new ideas, new additions, new enlightening results.

The past year brought with it the same steadfast loyalty and complete dedication of our Auxiliary members in all areas of fund raising, devoted service and financial support, which are, in fact, the very reasons for which we function and thrive.

Our Annual Fund-raising event last November, starring Peter Nero, an outstanding pianist and composer of many types of music, was a great social and financial success. There were nothing but raves over his fine performance at Symphony Hall.

Our Thrift Shop located at 25 Harvard St., Brookline, which has been thoroughly renovated and is going through various changes associated with growth, is already showing signs of immeasurable improvement. It remains our largest source of income, and we are encouraged by the fact that proceeds for January 1973 are starting off considerably higher than in January 1972 thanks to the perseverance and hard work of our newly appointed manager and dedicated volunteers.

Because of the enlargement of our attractive Gift Shop located in the lobby of the Hospital, we have increased our net income substantially. This happy result is also due in great measure to the loyalty and devotion of our volunteers who give hundreds of hours to make the Gift Shop the huge success that it is now enjoying.

Our Person-to-Person Group, a service wherein Volunteers are given the opportunity to assist patients emotionally and physically, thus relieving a nurse to perform other critical duties is developing beautifully under the guidance and leadership of our own Volunteer, Mrs. Edwin Salzman and B.I. Director of Volunteers, Mrs. Richard Williams.

This effort brings with it a great deal of personal satisfaction to the Volunteer as she lends a new warmth and friendliness to the patient. The service has caught on and is growing by leaps and bounds.

Our Life Membership list for 1972 showed a fine increase and continues to grow with each passing day. Both Annual and Life Membership telethons were extremely successful.

We are now in the process of directing our energies towards PROJECT REBUILD activities. All money that the Auxiliary raises will go towards the 5th floor, a 44 bed inpatient facility, of the new Feldberg Building, for which we have pledged an additional $300,000. This facility will be designated in an appropriate manner as the gift of the Women's Auxiliary.

A Young Women's group is now being developed. The members will work in various departments of the Hospital and also with the Auxiliary. They show great enthusiasm and bring a new excitement and brightness to our midst. We look forward to hearing much from them in the near future.

Last November, it was my privilege, on behalf of the Women's Auxiliary to present to Mr. Sidney Stoneman, President of the Beth Israel Hospital, a check in the amount of $100,000. It was indeed a beautiful experience for me.

I look forward to the New Year of 1973 with a great deal of anticipation filled with optimism and reassurance of even greater things to come.

Mrs. Paul Golub

Report of the President of the Men's Associates

It is with a high degree of satisfaction that the Men's Associates marked the completion of its third year of rewarding affiliation with the Beth Israel Hospital. The continuing rise in our membership reflects both the importance of the Hospital as a community asset and the increased attention it has earned as a basic force in health care leadership on local as well as national levels.

In reviewing events of the past year, the spirit of the still-growing Associates was best demonstrated by the near record turnout for our Annual Meeting in a raging snow storm on a Sunday morning this past March. While it would have been simpler, if not logical, to have postponed the Meeting, the indomitable ardor that typifies most activities at the B.I. prevailed and resulted in an especially rewarding experience.

The conception and intiation of PROJECT REBUILD by the Trustees of the Hospital have added a new dimension of appreciation for the institution we serve. The scope and magnitude of the program are at the same time awesome and inspiring. The members of the Men's Associates are proud to support this significant effort which is destined to raise the Beth Israel flag of excellence to new heights and provide the Hospital's expanding constituency the superior medical care our changing society demands.

AUDITORS' REPORT

To the Board of Trustees of
The Beth Israel Hospital Association:

We have examined the balance sheet of THE BETH ISRAEL HOSPITAL ASSOCIATION (a Massachusetts corporation) as of September 30, 1972, and the related statements of income, changes in fund balances and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. We have previously examined and reported on the financial statements for the preceding year.

In our opinion, the accompanying financial statements present fairly the financial position of The Beth Israel Hospital Association as of September 30, 1972, and the results of its operations, changes in fund balances, and the changes in financial position for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Arthur Andersen & Co.

ARTHUR ANDERSEN & COMPANY

Boston, Massachusetts,
November 15, 1972

NOTES TO FINANCIAL STATEMENTS

September 30, 1972

(1) Building Programs and Related Financing

Parking Garage —

The Hospital is constructing a parking garage adjacent to its present facilities which it anticipates will be completed by January, 1973, at a cost of $2,850,000. Interim financing in the form of a construction loan secured by a mortgage on the garage has been obtained from a bank. At September 30, 1972, construction funds advanced to the Hospital totaled $905,299. Interest on this loan is payable at the rate of 1½% above the bank's "base" rate. In addition, the Hospital is to pay an annual commitment fee equal to ¾ of 1% of the loan. However, the interest and commitment fee in total are not to exceed 8½% per annum on the total funds advanced.

The construction loan is due on demand after January 1, 1974, and may at the option of the Hospital be prepaid without penalty. The Hospital has a standby financing commitment from a bank which, under certain conditions, permits the Hospital to obtain a 25-year, 9% first mortgage loan (up to $3,200,000) to repay the construction loan. This standby commitment will be used only if the Hospital is not able to proceed with the sale of tax-exempt bonds as described below.

Completed Building Programs —

At September 30, 1972, the Hospital has $5,048,000 of loans payable to a bank secured by a portion of the Development Fund pledges. The proceeds of these loans have been used to finance the Hospital's construction programs substantially completed prior to the end of 1972. The loans are due on demand and interest is payable at the rate of ½ of 1% above the bank's "base" rate. If the secured loans payable exceed the portion of the Development Fund pledges received in connection with these completed building programs, the Hospital has agreed to make its unrestricted endowment funds available to pay any secured loan balances due. The secured loans exceeded the applicable portion of the Development Fund pledges by $3,755,000 at September 30, 1972.

(Continued on next page)

"Project Rebuild" —

The Hospital has undertaken a major expansion program (called "Project Rebuild") with the intention of constructing a new patient tower building to provide expanded inpatient facilities, new surgical suites, new recovery rooms and anesthesia offices. Also, it is contemplated that outstanding indebtedness (construction loan and demand loans payable) will be repaid. The total cost for construction of the new patient tower, related projects and refinancing is estimated at $37 million. Of this amount, the Hospital plans to provide approximately $5 million from its "Project Rebuild" fund raising and other Development Fund pledges. The remaining amount is expected to be obtained through the sale of tax-exempt Massachusetts Health and Educational Facilities Authority revenue bonds. The Authority is presently having a study made to determine the feasibility of this proposed construction and refinancing program.

At September 30, 1972, signed Development Fund pledges consist of —

	Pledged	*Collected*	*Receivable*
"Project Rebuild" pledges	$2,020,000	$415,000	$1,605,000
Other development fund pledges			1,293,957
Pledges receivable before allowance for uncollectible pledges of $236,200			$2,898,957

(2) Property, Plant and Equipment

Hospital property, plant and equipment as of September 30, 1972, is summarized below:

	Cost	*Accumulated Depreciation*	*Net*
Land	$ 229,354	$ ——	$ 229,354
Building and improvements	14,894,542	5,748,057	9,146,485
Equipment	18,652,483	9,135,778	9,516,705
	$33,776,379	$14,883,835	$18,892,544
Construction in progress	2,572,540	——	2,572,540
	$36,348,919	$14,883,835	$21,465,084

The Hospital follows a policy of capitalizing architects' fees and other costs directly related to the construction or development of its building programs. As of September 30, 1972, interest and commitment fees of $147,575 incurred during construction are included in construction in progress. Construction in progress also includes $1,170,006 for architectural, planning and engineering studies relating principally to the planned construction of an inpatient tower and the parking garage under construction (see Note 1).

Buildings, building improvements and fixed equipment are depreciated on the sum-of-the-years digits method or the straight-line method; movable equipment is depreciated on the straight-line method.

During fiscal year 1972, the Hospital transferred $1,528,923 ($1,998,480 in 1971) to its funded depreciation account (plant fund); of this amount $755,570 ($936,176 in 1971) was expended for additions to hospital plant and equipment. At September 30, 1972, cash and certificates of deposit in the depreciation fund amounted to $1,585,829 ($1,533,914 at September 25, 1971).

(3) Economic Stabilization Regulations

Economic stabilization regulations for the health care industry and related Medicare/Blue Cross price control regulations are still in process of refinement and interpretation. The Hospital has received approval from the Price Commission for an exception involving the base period profit margin limitation resulting from improvement in 1972 operating results as compared with certain prior (base) years.

Based upon regulations and interpretations published to date, management is of the opinion that the Hospital is in compliance with all aspects of the economic stabilization program.

(4) Contractual Settlements with Third-Party Payors

Under contractual arrangements with Medicare, Blue Cross and other third-party payors, the Hospital is reimbursed for services rendered to patients covered by these programs based on allowable costs (as defined in the applicable reimbursement regulations). Payments from these third-parties are made to the Hospital on a current basis at interim rates. Differences between the Hospital charges and the reimbursement based on allowable cost are recorded as contractual adjustments. After the close of each year, the Hospital files statements of reimbursable costs with the third-parties, which are used to determine the final reimbursement. These statements are subject to review and possible adjustment by the Medicare intermediary or the Massachusetts Rate Setting Commission. Audits of the statements of reimbursable costs have been completed through the fiscal year 1970 for Medicare and Blue Cross.

(5) Accounts Receivable

The Massachusetts Department of Welfare has not paid most Massachusetts hospitals for substantial amounts of services rendered to Medicaid patients prior to April 1, 1972 (and for patients on general relief prior to July 1, 1972), pending the appropriation of additional funds to the Department of Welfare by the Commonwealth of Massachusetts. At September 30, 1972, accounts receivable of the Hospital included approximately $360,000 due from the Department of Welfare for services rendered prior to April 1, 1972. Future payment of these Medicaid balances is contingent upon the appropriation of additional funds by the Commonwealth of Massachusetts. Ultimate payment of this receivable is uncertain; however, in the opinion of management, adequate reserves for possible losses on these receivables have been provided by the Hospital as of September 30, 1972.

(6) Harvard Administered Grants

The salaries and expenses for research, medical education and community health services do not include substantial amounts for grants administered by Harvard University for work done at Beth Israel Hospital. However, the statement of income includes overhead reimbursements received by the Hospital attributable to Harvard administered grant programs.

(7) Pension Plans

The Hospital has a noncontributory pension plan covering substantially all of its employees. Pension plan costs amounted to $350,000 in 1972 and $250,000 in 1971, which include amortization of past service costs of $83,000 in 1972 and $74,000 in 1971.

The Hospital has made revisions to the pension plan in 1971 and in 1972. In these years, the Hospital allowed additional credited service for various employees, allowed for the inclusion of Hospital physicians not previously covered, or made certain minor changes in benefits. These changes accounted for approximately $17,000 and $75,000 of additional pension costs in 1971 and 1972, respectively. It is the Hospital's policy to fund pension costs as accrued in the accounts.

In addition, the Hospital incurred costs of $295,000 in 1972, and $268,000 in 1971, for pensions of doctors covered under the Harvard University retirement program and for other pensions under informal pension arrangements.

The Hospital received reimbursement from various grants for pension costs of $136,000 in 1972, and $101,000 in 1971, which reduces the amount of the above expenditures charged to operations.

(8) Investments

Investments are stated at cost, or, if received by gift or bequest, at fair market value when acquired. A substantial portion of the endowment fund investments are restricted as to principal or income or both.

The Hospital is the beneficiary of bequests and gifts under various wills and trusts, etc., the realizable amounts of which are not presently determinable.

(9) Special Purpose Fund Grant Awards

Special purpose funds are primarily used for research, medical education and community health services.

The Hospital records special purpose fund grants receivable from the U. S. Public Health Service when the grant award is approved. The U. S. Public Health Service grants receivable are reduced as funds are received from the agency under a letter-of-credit arrangement. The U. S. Public Health Service grant awards and a grant from another source (whereby the Hospital receives $150,000 annually through 1973) are shown separately on the balance sheet as "Special Purpose Funds — Grant Awards". All other grants are recorded when the reimbursable project expenditures are incurred by the Hospital.

Grants for Research and Education
